## BAND BIO

The **Mike Brandon Band** (previously Gravyhound) may have had a rotating smorgasbord of members since their inception in 2002. But one thing that remains constant is the soulful nuance behind their bluesy sound.

With their free-form progressive style combined with the greasy charm of rock n'roll, infectious melodies come easily for the Oxford, Connecticut-based act. Their songs offer everything from searing unadulterated rock n' roll riffs to hypnotic psych pop melodies to raunchy rock to popping rockabilly tones.

The Mike Brandon Band are renowned for their ability to bring a **high-octane slice of energy** to their shows where they raucously blast their deftly orchestrated original tracks along with classic covers.

Their reputation for getting bar taps to flow and crowds to move is almost unparalleled – if anyone shares the same energy of **The Mike Brandon Band**, it's their ardent and loyal fans.
